

Economics 510 Class Presentation

Each student will work on a project dealing with a tax policy topic. The project will consist of a presentation near the end of the term to the class on an approved tax topic.

Topic: Each student will choose a topic for his or her presentation. The topic must be approved in advance. The topic can be an extension of the material covered in class or can be on a tax issue not covered in class. It can relate to the U. S. or any other country. Comparisons between or among countries are also appropriate.

If you wish, you can play the role of a government tax official or a public advocate dealing with a particular tax plan.

Presentation Length: 15-20 minutes including questions from instructor and class

Presentation Material: A one-page summary memo and a PowerPoint display (to be turned in).

Date: The presentations will begin in December.

Approval Process: For topic approval, student should email the following information before beginning work:

Name:

Presentation topic:

Summary of topic: (one paragraph)
